### Games People Play: Fifty-One in Fives

This is fun game that may be played by any number of players. The object is to be the first player to reach a score of exactly 51. Diddle for the middle to determine the playing order. A running total is kept vertically below each player's name to show the current score he or she has.

Each player throws three darts trying to score a total of the three darts that is EXACTLY divisible by 5. If the player's total is not divisible by 5, all three darts do not count (like a bust). If the player's total is exactly divisible by 5, divide the total by 5 and that number is the score for the round. For example, a player throws a single 20, a single 20 and a single 5. The score for that player would be 9 ( $20+20+5=45$   $45/5=9$ ). If any dart misses the board entirely, all three darts thrown in that round do not count.

To win the game, a total of 51 must be hit exactly. If the total ends up more than 51, all three of the darts thrown in that round do not count and the score remains the same.

Tips? Find the 5-wedges. The two best places on the board to throw are at the 20/5 area or the 10/15 area. Each of these areas give a nice wide target where hitting either number leaves you divisible by 5. Of course, you could also throw single and double bulls!
